•What Are Proofs?

Proofs are preview prints by definition, which means that the disk will contain about low-resolution images with ?ts My Moment Photography imprinted on them. They are fine to e-mail, post online in places like Facebook, etc, but aren't of high enough quality to print out. I maintain copyright and printing without permission is not allowed.

I do sell separately a CD containing all the high-resolution images along with permission to print at your discretion and do with your images as you please (opposed to having to order prints continuously through me as I realize this can get expensive) for a very reasonable price: \$150. I find the majority of my customers go for this option.

•Print Prices:

All my prints are professionally printed on archival quality satin paper; colors are precisely matched for optimal vibrancy.
